The Analyst,

THE ORGAN OF THE

Society of Public Analysts,

A MONTHLY JOURNAL DEVOTED TO THE ADVANCEMENT OF ANALYTICAL CHEMISTRY.

EDITORIAL COMMITTEE:

THE PRESIDENT (THOMAS STEVENSON, M.D.).

ALFRED H. ALLEN. | BERNARD DYER, D.Sc.

EDWARD J. BEVAN. | OTTO HEHNER.

SUB-EDITOR: WALTER J. SYKES, M.D.

VOLUME XX.

1895.

LONDON:

BAILLIÈRE, TINDALL AND COX,

KING WILLIAM STREET, STRAND, W.C.

BOSTON MEDICAL
AUG 21 1918
LIBRARY
CATALOGUED
AUG 21 1918

INDEX OF SUBJECTS.

A.

PAGE

Acetic acid in vinegar, Estimation of, A. R. Leeds 224
Acetone, Detection of water in, Schweitzer & Lungwitz 234
Acetyl numbers of lard, cotton-seed-oil, and tallow, E. Spaeth 252
Acids, volatile fatty, Mathematical deductions from the distillation of, H. D. Richmond 193
,, Tables of the rates of distillation of 196, 197
Air, Estimation of dust in, K. Arens ... 137
Alkaloids and glucosidal bodies, Quantitative separation and chemical characteristics of, in forensic cases, C. Kippenberger 201, 204
,, Methods of estimation of single ... 203
,, Separation of mixtures of ... 204
,, Acidimetric estimation of vegetable, L. F. Kebler 278
Aluminium, amalgamated, as a reducing agent, Wislicenus & Kaufmann ... 213
Analysis, volumetric, Barium thiosulphate for standardizing iodine solution in, Plimpton & Chorley 111
Ang-khak, a Chinese dye used for coloring articles of food, H. C. Prinsen 198
Annual Address of the President 25
Annual Meeting of the Society of Public Analysts 25
Anthracene, Estimation of paraffin in crude, Heusler & Herd 142
Antimony as antimonious antimoniate, Estimation of, O. Brunk ... 190
,, arsenic, and tin, Separation and determination of, W. Hampe... 46
Antipyrine and thalleioquin reaction, The, J. Duncommun 234
Apparatus for preserving and delivering standard solutions, J. C. Chorley 15
,, constant level for distilling flask, J. C. Chorley... 16
Appointment :—
Mr. G. R. Thompson to Monmouthshire 264
Apples, Estimation of zinc in desiccated, L. Legler 251
Arachis-oil, Modification of Renard's process for the determination of, H. Kreis ... 136
Arsenic in iron and steel, Volumetric estimation of, A. Mignot 235
,, Separation of, from other elements by methyl alcohol and hydrochloric acid, Friedheim & Michaelis ... 235
,, Detection of, in presence of selenium, L. Dawydow 113
,, Toxicological detection and estimation of, E. Barillot 22

PAGE

Asphaltene, Definition of 41
Asphalt question, The, S. F. Peckham ... 63
Asphaltum, On the technical analysis of, L. A. Linton 41
Austrian alimentary code, Extract from (Wine) 117

B.

Badouin's reaction for the detection of sesame-oil in olive-oil, E. Carlinfanti ... 222
Barium thiosulphate for standardizing iodine solution, Plimpton & Chorley... 111
,, hydroxide solution in carbon determination in steel, J. O. Handy... 191
Beer, The detection of fluorine in, Hefelmann & Mann 185
,, Estimation of glycerin in, A. Partheil... 251
,, Detection and estimation of glycerin in, Molhaut 223
Benzene, Estimation of thiophen in, E. Deniges 188
Blood-stains, Detection of, in forensic cases, F. Gantter 186
Bone-black, Rapid and accurate analysis of, W. D. Horne 69
Boric acid, Estimation of, J. N. Dupasquir 223
Boron, Estimation of, H. Moissan... ... 22
Bromine in the presence of chlorine, Estimation of, W. Wense 139
Burette, An improved, F. Oettel 238
Butter analysis, contribution to (Refractometer), J. Delaite 59
Butter, an abnormal, J. Samuelson ... 221
,, Examination of, E. Polenske ... 277
,, and margarine, test for distinguishing, J. Rolffs 221
,, Viscosimetrical examination of, C. Killing 66, 94
,, Viscosimetrical examination of, for foreign fats, N. Wender ... 220

C.

Cadmium and copper, New method for the estimation of, A. S. Cushman 214
,, zinc, and nickel, Separation of copper from, P. N. Rikowa ... 23
Calcium oxide in quicklime, Method of determining, Stone & Scheuch 19
,, ,, Solubility of, in sucrose solutions 19
Californian red wines, Colouring matter in, W. D. Bigelow 112
Candle material, Determination of melting-point and composition of 40
Carbohydrates in milk, Identification and estimation of, A. W. Blyth 121

PAGE

Carbon estimation in steel, Superiority of barium hydroxide solution in, J. O. Handy 191
,, in iron, New method of estimating, L. Schneider 65
Carbonic acid, Examination of liquid, L. Grünhut 113
Castor-oil, Anomalous behaviour of, towards Hübl solution 51
Cellulose, Quantitative estimation of, G. Lange 283
Charcoal, Rapid analysis of animal, W. D. Horne 69
Cheese, Contribution to the study of the ash of, Mariani & Tasselli... ... 168
,, Note on two samples of "filled or lard," R. Bodmer 268
Cheeses, Composition of some English, Chattaway, Pearmain & Moor 132
Chicory, Roasted, E. G. Clayton 12
Chlorine in presence of iodine, Detection of, P. N. Raikow 47
,, and iodine, Quantitative separation of, P. N. Raikow 47
,, in the presence of bromine, Estimation of, W. Wense 139
Chloroplatinates, Volumetric analysis of, L. L. de Koninck 140
Chromium in chrome ore, Method of determining, E. Clark 141
Cinnamon, Notes on, Dyer & Gilbard ... 129
,, Table of analyses of 130
,, Microscopic appearance of ... 131
Citric acid, Characteristic reaction of, L. Stahr 188
Cocoanut-oil in lard compounds, E. B. Kenrick 96
Coffee, A new alkaloid in, Paladino ... 141
,, beans, On the fat, sugar, and tannin of, Herfeldt & Stutzer 249
,, Note on an adulterated sample, Pearmain & Moor 176
Cola-nut, On the chemical composition of, Uffelmann & Bömer 42
Confectionery, On the composition of some vegetable coloring matters for use in, G. Posetto 188
Copaiba, Detection of oil and gurgun balsam in, E. Hirschorn 252
Copper, The wet assay of, R. S. Dulin ... 164
,, salts, Methods of analysis of, L. Sostegni 189
,, bullion, Estimation of tellurium in, C. Whitehead 189
,, and cadmium, New method for the separation of, A. S. Cushman ... 214
,, Separation of, from cadmium, zinc, and nickel, P. N. Rikowa ... 23
Correspondence :—
Cocoanut-oil in lard compounds, E. B. Kenrick 96
Letter from Dr. Dupré 144
,, ,, Dr. E. Frankland 192
,, ,, Mr. W. C. Young 216
Cotton-oil in lard, Note on the detection of, E. B. Kenrick 136

PAGE

Cream, average amount of fat in, during 1894... 55

D.

Dextrin, Estimation of 226
Diastase, Chemical nature of, T. B. Osborne 232
,, can be salted out with ammonium sulphate or magnesium sulphate 233
Duclaux's method for the estimation of "volatile fatty acids," the laws governing volatility deduced therefrom, and their application to analysis, especially to that of butter, H. D. Richmond ... 193, 217
Dust in the air, Estimation of, K. Arens... 137

E.

Elaidin reaction, Influence of temperature on, A. P. Lidow 178

F.

Fats, Gravimetric determination of bromine absorption in, O. Hehner 49
,, and hydrocarbons, A new method of analysing, M. Crismer 209
,, Critical temperatures of dissolution ... 210
Fatty acids, Separation of solid and liquid, E. Twitchell 165
,, ,, Note upon Muter's, Jean's, Rose's, methods of separation of 165, 166
,, ,, Viscosity increases with molecular weight... 220
,, ,, free in oil-cakes and other feeding stuffs, Dyer & Gilbard 241
,, bodies, Action of sulphur on unsaturated, J. Altschul ... 256
,, ,, Critical temperatures of dissolution, a new constant for their examination, L. Crismer 257
Fluorine in wine, Detection of, Niviere & Hubert 185
,, beer, Detection of, Hefelmann & Mann 185
Fodders, Estimation of starch in 19
,, Estimation of woody fibre in, A. P. Aitken 35
,, Importance of removing oil before determing the fibre 36
Formaldehyde, Methods for the detection of 154
,, Action of, on albumin, 156, 157, 167
Formalin as a preservative of milk samples, E. J. Bevan 152
,, Note on the detection of, Richmond & Boseley 154
,, as a milk preservative, S. Rideal 157
,, Action of, on food stuffs, Weigle & Merkel 167
Formic acid, Determination of, with potassium permanganate, H. C. Jones 207
,, ,, Estimation of, F. Freyer ... 208
Fustic, Interpretation of the results of the analysis of, C. S. Boyer 208

PAGE

G.

Gelatin rendered insoluble by formaldehyde 44
Geranium-oil in rose-oil, On the detection of, R. JEDERMANN 48
Glass, Action of magnesium mixture on, L. L. DE KONINCK... 138
Glucosazone, Solubility of 125
,, can be readily shaken out with ether 127
Glucose, A new method of estimating, by ammoniacal copper solution, ALLEIN & GAUD 21
Glue and glue-yielding substances, The analysis of, W. FAHRION 254
Glycerin, Crystallized, E. J. BEVAN ... 131
Glycerol in wines, Estimation of, MANCUSO-LIMA & SGARLATA 183
,, beer, Detection and estimation of, M. MOLHAUT 223
,, wine and beer, Estimation of, A. PARTHEIL 251
Gold estimation by parting, Influence of the metals of the platinum group on, E. PRIWOZNKI 262
Gunning method for estimating total nitrogen in fertilizers, W. E. GARRIGUES ... 39

H.

Hide-powder, Action of alcoholic soda on... 178
Honey-dew, The composition of, and the influence of a summer rich in honey-dew on the condition of honey, E. VON RAUMER 16
Honey, Water in, J. GRAFTIAN 251
Horseflesh, Chemical recognition of, W. NIEBEL 252
,, Chemical process for recognising, M. HUMBERT ... 95
Hübl's method of iodine absorption, J. EPHRAIM 176
,, iodine process, Theory of, and suggested improvement, WALLER ... 280
Hydrobromic acid, Formation of, in oil testing not due to presence of water ... 50
Hydrocarbons and fats, A new method of analysing, M. CRISMER 209
Hydrogen peroxide, The concentration and distillation of, R. WOLFFENSTEIN ... 38
,, ,, in green plants, Detection of, A. BACH ... 112

I.

Indicators in volumetric analysis, use of litmus and methyl orange, G. LUNGE ... 65
Indigotin, New method of estimating, J. SCHNEIDER 211
Iodine, Curious behaviour of unsaturated fatty acids with 52
,, in organic substances of the fatty series, M. C. SCHUYTEN 234
,, and chlorine, Quantitative separation of, P. N. RAIKOW 47
Ionone and irone, Detection and estimation of, TIEMANN & KRÜGER 234
Iron, New method of estimating carbon in, L. SCHNEIDER 65

PAGE

Iron and steel, Volumetric estimation of arsenic in, A. MIGNOT 235
,, and nickel, Separation of, CAMPBELL AND ANDREWS 116

K.

Kjeldahl-Jodblauer-Gunning method, Note on... 40
,, process, Uselessness of, for determination of nitrogen in platinochlorides, DELEPHINE 111
,, method for the determination of nitrogen, B. DYER 252
,, process, Arrangement for conducting 253
,, process, Modification of, for substances containing nitrates ... 253

L.

Lactosazone, Solubility of 125
Lard, Note on a sample of supposed, B. KITTO 32
,, Note on detection of cotton-oil in, E. B. KENRICK 136
,, Examination of, A. GOSKE 222
,, Analysis of, M. MANSFIELD 222
Lard analysis, The phosphomolybdic test as applied to, G. F. TENNILLE 63
,, Results of a number of tests in 63
Larderine, Note on a sample of, R. BODMER 33
Lathyrus sativus, Feeding experiments with Indian peas containing, J. HUGHES 169
,, Microscopic structure of, 172
Lead and lead ores, Analysis of, NISSENSON & NEUMANN 286
Leather, Analysis of chamois 180
,, Analysis of glacé kid 180
,, Determination of sulphuric acid in, P. F. JEAN 62
Linseed-oil, Examination of raw and boiled, H. AMSEL 70
,, Examination of raw and boiled, F. FILSINGER 137
Liquid carbonic acid, Examination of, L. GRÜNHUT 113
Litmus solution, Preparation of, W. SCHAFER 37
Luteol, A new indicator, W. AUTENRIETH 188

M.

Mace, Chemical variations of different kinds of, E. SPAETH 200
Magnesia mixture, Action of upon glass, L. L. DE KONINCK 138
Magnesian pyrophosphate in the citrate method, How to obtain pure white, H. NEUBAUER 20
Maize as an adulterant of oatmeal, J. WHITE 30
Maltose, Estimation of 226
,, Rotatory power of, H. OST . . 258
,, Specific gravity of solutions of, ... 259
Manures, Determination of potash in, W. E. GARRIGUES 66
Martius' yellow in macaroni, etc., Detection of, F. SCHAFFER 225

PAGE

Maumené's test for oils, H. D. Richmond 58
Meat-extract, Estimation of gelatin and albumin in, E. Beckmann 44
Meat-extracts, Comparative examination of the constitution of, A. Stutzer 182
,, Valuation of 182
Meat-extracts and commercial peptones, Analysis of the nitrogenous constituents of, A. Stutzer 246
Microbes found in water, List of 97
Milk analysis, Acetic acid does not completely remove proteids in 128
,, Contribution to, E. Beckmann 42
,, Employment of dehydrated sodium sulphate in ... 20
,, Estimation of fat, E. Beckmann 42
,, Estimation of solids-not-fat by freezing 43
,, Inversion of cane-sugar by citric acid 138
,, Method of clearing whey for polarimeter 121
,, Use of Mohr-Westphal balance in, C. H. Wolff 115
Milk, Apparent increase in total solids under the influence of formalin 152
,, Case involving a sample of abnormal, R. Bodmer 265
,, Composition of, and the conditions affecting it, as shown by Dr. Bell's analyses, J. F. Liverseege ... 7
,, condensed, The composition and analysis of, Pearmain & Moor ... 268
,, Detection of watered by examination of milk serum, Lescoeur 200
,, Identification and estimation of carbohydrates in, A. W. Blyth ... 121
,, Formalin as a preservative in, S. Rideal 157
,, Necessity of adding preservatives to while fresh 156
,, Note on commercial condensed, A. H. Allen 274
,, New formula for estimating composition of from total solids and fat ... 57
,, New method of estimating fat in, Fernandez-Krug & Hampe ... 20
,, Recknagel's phenomenon in, H. D. Richmond 1
Milks, condensed, Tables of the analyses of 271, 275
Milk and milk products, Composition and analysis of, during 1894, H. D. Richmond 54
Milk samples, Use of formalin as a preservative of, E. J. Bevan 152
Milk scale, Correction for Richmond's ... 58
Milk-sugar, Estimation of by Gerrard's cupric-cyanide process 124, 127
,, Estimation of by phenylhydrazine 125
,, Rübner's test for 95
Morphine, Fallacies of post-mortem tests for 38

PAGE

N.

Naphthol, Detection of, H. Spinette ... 211
Nickel and iron, Separation of, Campbell & Andrews 116
Nickel, cadmium and zinc, Separation of copper from, P. N. Rikowa 23
Nitrates, Determination of nitrogen in, M. Krüger 45
Nitrites in presence of iron salts, Detection of, H. Kral 24
Nitrocellulose, Estimation of nitrogen in, D. Stanojewitsch 21
Nitrogen in fertilizers, On the Gunning method for estimating total, W. E. Garrigues 39
Nitrogen in nitrates, nitro-compounds, and nitroso-compounds, Determination of, M. Krüger 45

O.

Oatmeal adulterated with barley 32
Oatmeal, Note on maize as an adulterant of, J. White 30
Obituary notice, Dr. W. Morgan, of Swansea 145
Officers and Council for 1895 30
Oil analysis, Attempt to use heat evolved by sulphur chloride in 148
,, Relation between Hübl number and rise in temperature with bromine 149
Oil, Arachis, modification of Renard's process for the detection of, H. Kreis 136
,, cotton-seed, Becchi's test for 222
,, cakes and other feeding stuffs, Free fatty acids in, Dyer & Gilbard 241
,, olive, Iodine chloride as a substitute for Hübl's solution 177
,, ,, Examination of 45
,, ,, On Hübl's method of iodine absorption, J. Ephraim 176
,, raw and boiled linseed, Examination of, H. Amsell 70
,, Linseed, Note on the iodine and bromine absorptions of, R. Williams ... 276
,, Sesame in olive, Baudouin's reaction, E. Carlinfanti 222
Oils, A new thermal method for the examination of, Hehner & Mitchell ... 146
,, Chloro-iodine, Numbers of certain ... 138
,, Colour reactions of olive and others, Negri & Fabris 45
,, Detection of albuminous matters in ... 178
,, Gravimetric determination of bromine absorption in, O. Hehner 49
,, Maumené's test for, H. D. Richmond 58
,, Relation between the Hübl and Maumené figures 147
,, Tables of the iodine and bromine numbers of various 51
,, Stannic bromide test for 175
,, Testing of, with the refractometer, T. H. Pearmain 134

P.

Paraffin in crude anthracene, Estimation of, Heusler & Herde 142

PAGE

Peas, Indian, containing lathyrus sativus, Feeding experiments with, J. Hughes 169
„ Microscopic structure of 172
Pepper, The examination of, W. Busse ... 180
„ Valuation of, by means of coloring matter in husk 181
Peptone, Estimation of gelatin and albumin in, E. Beckmann 44
Peptones, Analysis of commercial 246
„ Note on the adulteration of commercial, M. L. Hogouneng ... 94
Petrolene, Definition of 41
Petroleum, Estimation of sulphur in, F. Heusler 187
Perchromic acid, Solvents for, W. M. Grosvenor 113
Phenylhydrazine, Employment of, in estimation of dextrose, lævulose, and saccharose, Lintner & Kröber 167
Phosphomolybdic acid test in lard analysis, G. F. Tennille 63
Phosphoric acid, Estimation of, by titration of the molybdate precipitate, B. W. Kilgore .. 17
„ „ Method of obtaining pure white magnesium pyrophosphate in the estimation of, H. Neubauer ... 20
„ „ The determination of, H. Pemberton 95
„ „ Simple method of determining by molybdate solution, J. Hanamann 115
„ „ Estimation of "available," in Thomas slag, G. Sani 189
„ „ Estimation of "citrate-soluble," in Thomas slag, P. Wagner 215
Platino-chlorides, Uselessness of Kjeldahl's method for determining nitrogen in, Delephine 111
Poivrette in pepper, Phloroglucol test for ... 181
Potash in manures, Determination of, W. A. Garrigues 66
Potash determination in fertilizers, Addition of calcium chloride to solution in, R. de Roode 66
Potassium nitrate, Removal of perchlorate from, V. Panaotović 23

Q.

Quicklime, Method of determining calcium oxide in, W. E. Stone & F. C. Scheuch 19
Quinine, The micro-chemical examination of, H. Behrens 92

R.

Recknagel's phenomenon, Note on, H. D. Richmond 1
Refractometer, Testing of oils with, T. H. Pearmain 134
Refractometers, Difference in scales of ... 135
Resin in soap, Gladding's process for the determination of, L. Archbutt 6

PAGE

Reviews :—
Aids to the analysis of food and drugs, Pearmain & Moor 262
Air, water, and disinfectants, C. M. Aikman 240
Chemical analysis of oils, fats, and waxes, and of the commercial products derived therefrom, Benedikt & Lewkowitsch 119
Chemistry of urine, a practical guide to the analytical examination of diabetic, gouty, and albuminous urine, A. H. Allen 263
Poisons, their effects and detection, A. W. Blyth 239
Science and art of bread-making, W. Jago 238
The Sale of Food and Drugs Acts, Bell & Scrivener 24
Rose-oil, On the detection of geranium-oil in, R. Jedermann... 48
Rosin in soap, Examination of the Twitchell method of determining, Evans & Black 60

S.

Salicylic acid in wine, Detection of, M. Spica 184
Saltpetre, The purification of, from perchlorate, V. Panaotović 23
Sandal-wood-oil, Note on the adulteration of, Pearmain & Moor 174
Selenium, Detection of arsenic in presence of, L. Dawydow 113
Sewers, Absence of typhoid bacteria in ... 106
Silicates, Lead carbonate as an agent for opening up, P. Jannasch 191
Silk from cotton, To distinguish 179
Slag, Thomas, Estimation of phosphoric acid in, G. Sani... ... 189
„ „ Estimation of phosphoric acid in, P. Wagner ... 215
Soap, Determination of resin in, by Gladding's process, L. Archbutt 6
Soaps, Examination of the Twitchell method of determining rosin in, Evans & Black 60
Soda solution, Action of alcoholic, on albumin and glue-yielding substances, W. Fahrion 178
Sodium peroxide, Note on the analysis of, L. Archbutt 3
Starch, A comparison of the methods for the determination of, W. E. Stone ... 17
„ Solution, The preservation of, H. Krall 23
„ Rapid estimation of, P. L. Hibbard 64
„ New method of estimating, by iodine, Dennstadt & Voitglander 210
„ Determination of, H. Ost 226
„ Estimation in brewers' grains and forage material 19
„ Microscopical distinction between maize and oatmeal... 31
Streams, Purification of by green plants, bacteria, etc., Bokorny & Duclaux ... 91
